NATIONAL SCIENCE AND TECHNOLOGY COUNCIL

OUR MISSION

To effectively and efficiently promote, regulate, coordinate and mobilize resources for innovative science and technology in order to contribute to wealth creation and improve the quality of life in Zambia

OUR VISION

To be a nerve centre for the promotion of innovative science and technology for socio-economic development in Zambia

OUR GOAL

To contribute to wealth creation by 1% through innovative science and technology by 2016.

NSTC

FOREWORD

The quality and number of a country's scientists and technologists are an important resource for technological development of that country. Scientists, Engineers and Technologists transform national economies and societies by conducting research and development work whose output contributes to industrial development and national economic competitiveness.

The Directory of Scientists and Technologists in Zambia is therefore more than a collection of names, qualifications and contact details of people in the fields of Science, Technology and Innovation in Zambia. It is a resource that will provide easy access to information on human resources in the science and technology sector of the country.

The directory will also enhance relationships between and among people in their own and related fields as well as those in other fields of science and technology. This will be achieved through facilitation of communication networks among the different players who will access the directory thereby enabling them to communicate quickly with their colleagues.

For students, the directory will encourage them to easily locate high quality human resources in different disciplines, sub-disciplines, and within cross-disciplines of science and technology with whom they can readily communicate to and interact with. This I believe will help learners identify high caliber scientists and technologists to mentor them as they are pursuing their careers.

The Council is certain that the Directory of Scientists and Technologists will act as a one stop '*shop*' for all information on human resources in the science and technology sector of our country.

As a Council, we look forward to witnessing the directory's continued growth and contribution to the availability of information on scientists and technologists in the country.

Dr. Henry M. Musenge
Chairman

NATIONAL SCIENCE AND TECHNOLOGY COUNCIL

ACKNOWLEDGEMENTS

The second publication of the directory of Scientists and Technologists has undergone some changes from its predecessor. The information unlike the earlier version has been grouped according to the various fields of Science and Technology as classified by the Frascati Manual.

Many thanks go to the institutions that responded to the call to update the directory. I further wish to thank the NSTC staff for their dedication and commitment in performing their jobs.

Dr. Alfred. J. Sumani

Executive Secretary

NATIONAL SCIENCE AND TECHNOLOGY COUNCIL

LIST OF ACRONYMS AND ABBREVIATIONS

General Acronyms

LAB	Laboratory
MED	Medicine
MGT	Management
NISIR	National Institute for Scientific and Industrial Research
NSTC	National Science and Technology Council
R&D	Research and Development
SCCI	Seed Control and Certification Institute
STI	Science, Technology and Innovation
S&T	Science and Technology
UNZA	University of Zambia
VET	Veterinary
ZARI	Zambia Agricultural Research Institute

Abbreviations for Qualifications

BEng	Bachelor of Engineering
Bsc	Bachelor of Science
Bsc ED	Bachelor of Science with Education
Cert	Certificate
Dip	Diploma
Dip ED	Diploma in Education
MA	Master of Arts
Msc	Master of Science
Phd	Doctor of Philosophy

OUR MISSION

To effectively and efficiently promote, regulate, coordinate and mobilize resources for innovative science and technology in order to contribute to wealth creation and improve the quality of life in Zambia

OUR VISION

To be a nerve centre for the promotion of innovative science and technology for socio-economic development in Zambia

OUR GOAL

To contribute to wealth creation by 1% through innovative science and technology by 2016.

The Executive Secretary
National Science and Technology Council
Haile Sellasie Avenue,
Curriculum Development Centre Building, Longacres
